

KNOW OUR CEO

M. V. Radhakrishnan

Founder & CEO, Terrastrom Solutions | 48 Years in Engineering & Renewable Energy Leadership

M. V. Radhakrishnan brings 48 years of engineering and general management leadership to Terrastrom Solutions, including 25 years spanning the complete renewable energy value chain — development, EPC, asset management, financing and independent due diligence. He has held P&L responsibility for a 1.5 GW operating solar and wind portfolio across four countries and provides strategic oversight to over 7 GW of projects in advisory portfolios worldwide.

He is the lead developer and director of the 5 GW Wind–Solar–BESS Hybrid DPR for KREDL, Karnataka — the largest hybrid renewable energy programme of its kind in India. Before founding Terrastrom Solutions, he held senior leadership positions at SunEdison, Suzlon, Kenersys (Kalyani Group) and NEG Micon (Vestas Group), delivering renewable energy projects across India, Southeast Asia and Sub-Saharan Africa.

Career Highlights

- Lead Developer & Director — 5 GW Wind–Solar–BESS Hybrid DPR for KREDL, Karnataka, India's largest hybrid renewable programme
- P&L leadership of a 1.5 GW solar & wind operating portfolio across four countries at SunEdison, with 200% asset-base growth
- 600 MW of solar projects delivered across India, Thailand, Malaysia and South Africa
- 1,700+ MW of independent technical and financial due diligence completed across India and China
- Delivered India's first canal-top solar project — 1 MWp on the Narmada Canal, Gujarat (2012)
- Built and secured 9 GW of renewable energy land banks at Suzlon and Kenersys
- Trusted advisor to KREDL, the Government of Kerala, NTPC, JP Morgan Asset Management and WRI
- Curates a 350,000+ member LinkedIn community on renewable energy policy, technology and project finance

Education: B.Tech in Electrical & Electronics Engineering, National Institute of Technology (NIT) Surathkal, 1978
